

Fold the jumper in the middle and iron down the back all the way up to the top of the collar flap.

Note the creases turn in along the sleeves and trouser legs

Blues and whites are ironed the same way they are turned in-side-out and ironed. When thurned right-side-out, the creases turn in-ward as seen here.

Trousers are folded (wrong side out) and laid out flat with creases along the seams (not front and back, but side to side). When turned right side out, the creases will be along the sides of the trouser legs and creases going inward, not outward like regular trousers.
